You run a **small or medium business** and it is facing the following **problems**:

- 1** Cost controlling, budgeting, reporting and consolidation (statutory or management)
- 2** M&A projects, due diligence or start-up of a joint-venture
- 3** CAPEX : profitability, issue of file and follow-up of authorizations and of expenses

Don't hire a CFO ! Just call a **shared time Financial Director** for some hours a month !

Thanks to my skills, acquired in a big industrial group, I can help you, rapidly and effectively.

My approach : "problem solving"! No long preliminary study or vague consultancy, instead : clearly identified problems, simple solutions, defined with your management, followed by concrete actions.

Asserted values : rigor and flexibility, acute awareness of costs, proximity and networking, ...

A long and rich **experience**
